

We appreciate those volunteers who have generously given time throughout the year, for they have contributed to the quality of life in Livingston County and to the environment.

However, we would like to see some new faces joining our current volunteers! Recycle Livingston has a volunteer activity for every age and skill level. Volunteer activities at the collection site include: greeting vehicles, unloading and checking materials. Volunteers are also needed to assist the Board of Directors in activities that include education, fund raising, or research and development.

Please consider volunteering for one shift in the next few months. The other volunteers will be glad to meet new people, and you will probably find them lively and enthusiastic. Just fill in the information below and mail to the office at the address at the bottom. The volunteer coordinator will contact you about scheduling your time.
